

Dr. Alexis von Hoensbroech Austrian Airlines

Dr Alexis von Hoensbroech was born on 3 October 1970 in Cologne. He studied physics at the University of Bonn before obtaining a doctorate in an astrophysics-related subject at the Max Planck Institute for Radio Astronomy. Between 1999 and 2005 he worked at management consulting firm - The Boston Consulting Group - in Munich and Tokyo, most recently as a Project Manager. His customers were primarily from the airline industry.

In 2005, Dr Alexis von Hoensbroech moved to Lufthansa, taking on responsibility for the Strategy & Subsidiaries division of Lufthansa Passage. In 2009, he was named "Project Manager for Airline Integration Management", where he was responsible for the integration of various airlines, such as Austrian Airlines and Brussels Airlines, into the Lufthansa Group. From July 2010, he was "Head of Commercial Frankfurt" for Lufthansa Passage and responsible for network management, revenue management and

commercial business management at the airline's biggest hub. On 1 December 2014, he moved to Lufthansa Cargo AG, serving on its Executive Board as CCO. In addition to coordinating global sales and handling, von Hoensbroech was also in charge of capacity management, product management & innovation and Platform Management of Austrian Airlines.

Since 1 August 2018 von Hoensbroech has been a Member of the Management Board of Austrian Airlines as Chief Executive Officer (CEO). He holds management responsibility for the following divisions: Flight Operations, Technical Operations, Ground Operations, Human Resources, Finance and Accounting, Procurement, Business Development & Corporate Strategy, Corporate Communications as well as Legal Affairs and Internal Audit.

Dr Alexis von Hoensbroech is married and has five children.
