

SAS

Scandinavian Airlines

TRAVELERS FOR THE FUTURE

Who knows Scandinavia better than us, Scandinavian Airlines? Since 1946 we have been a reliable and renowned Scandinavian specialist. We are the market leader in Scandinavian connections and a founding member of the Star Alliance. If you recommend SAS to your travelers, you can be sure that they will have, not only, a great experience in Scandinavia, but also the best possible onboard service and smooth connections throughout exciting destinations in Scandinavia.

A SUSTAINABLE BUSINESS MODEL

It is crucial to find ways to travel without a negative impact on the environment. SAS is fully dedicated to being a part of finding solutions, which we do. Enabling large scale use of Biofuel is one ongoing solution, but already today SAS CO₂ offset all our EuroBonus members travel and youth tickets without any additional cost for

the traveler. It is easy and free to join EuroBonus, and contribute to a better environment when traveling by choosing SAS (and EuroBonus). And our airplane A320 NEO has 30% less emission than earlier models. We consider our environmental footprint in every step of our business and we work hard to keep it down to a minimum.

WE ARE TRAVELERS
